

Heritage Underwater Maritime Archaeology Gotland eller HUMA Gotland har undersökt lämningar som finns kvar efter den dansk-lybska flottan som förläste utanför Visby, i en fruktansvärd storm 1566.

Under 2009 utfördes marinarknologiska undersökningar under tre veckor på tre platser längs Visbys kustband.

Heritage Underwater Maritime Archaeology Gotland or HUMA Gotland has examined the remains of the Danish-Lübeck fleet that was shipwrecked off Visby, in a terrible storm in the year 1566.

During 2009, maritime archaeological investigations were carried out over the course of three weeks at three locations along the Visby seaboard.
